

**Post Graduate Certificate Course in Health System and Management - 2013**

Module 5:

**Assignment**

---

---

**Indian Association of Preventive and Social Medicine  
Gujarat Chapter**

## Assignments for module 5

1. Write a case study about inventory control mechanism of any one organization. (e.g. PHC/NGO/CHC/Private Hospital)
2. List the drugs used in medicine ward/PHC/obstetrics department/SC/AWW/ and their cost. Carry out ABC & VED analysis of these drugs.
3. Based on demographic data of your PHC/ corporation/ district calculate the annual vaccine requirement. Find out the reorder level & buffer stock of these vaccines.

### **Some points to keep in mind before writing the Assignment.**

1. The assignments are to assess your level of understanding about the topic, and capability of applying analytical skill, logical thinking and creative thinking using public health sense and field situation.
2. Your short writing filled with skills and senses mentioned above will get higher grade than elaborative writing without reflection of understanding.
3. We don't stress hard facts and figures; so don't waste time for searching, but key information (not necessary exact with citation of source) will enhance the level of your assignments.
